

let's make it **easy**

Digital Entertainment Gateway

Model: U10C029

Overview

Ubee's Digital Entertainment Gateway (DEG) is the first of its kind to offer a fully integrated cable modem storage solution to help MSOs generate additional revenue while reducing capitol costs. With an embedded MTA, an 802.11g Wi-Fi Router, DLNA, and MoCA, the possibilities are endless. Now consumers will have the ability to stream multi-media content to any IP connected device while storing important data on the internal SATA Hard Drive, and continue to receive broadband and voice services from their providers. The Digital Entertainment Gateway (DEG) is a platform where MSOs will be able to create revenue driving applications which will enhance the services and customer satisfaction of consumers.

Key Features & Benefits

- **Internal SATA Hard Drive**

160GB SATA Hard Drive for NAS, Content, and Backup storage.

- **USB 2.0 Host Ports**

Along with the internal SATA Hard Drive, the two USB 2.0 Ports allow for external storage capabilities, print server, and extended data back up services.

- **Multiple Wi-Fi SSIDs**

Multiple SSIDs enables Fixed Mobile Convergence (FMC), public and private networks, and shared SSIDs for the MSOs use.

- **Four Products in One**

Integrates a Cable Modem, eMTA, Wireless Gateway, and 4 port LAN router into a single platform.

Digital Entertainment Gateway

Model: U10C029

Key Features & Benefits Cont'd

- **Robust Security**

Stateful Packet Inspection Firewall that supports TCP/UDP inspection, DoS (Denial of Services) detection and prevention, real time alert, reports and logs. Wi-Fi Protected Security (WPS) is enabled by a physical hardware button. By just one click, WLAN security is automatically activated between the gateway and WPS-enabled wireless clients.

- **DLNA Compliant**

DLNA allows easy and convenient viewing and managing of consumer's entertainment content. With DLNA a consumer can view their content from any location within the home and beyond.

- **MoCA Enabled**

No new wires needed for MoCA inside the home. Multimedia over Coax Alliance (MoCA) promotes distribution of digital video and entertainment through existing coaxial cable in the home. MoCA technology provides the backbone for whole home entertainment networks of multiple wired and wireless networks.
